Display guide line

① Adhesive printing (material: Adhesive PVC sheet)

→ It can be posted by paperhanger

PVC sheet is the printing material which is easy to remove.
As other printing materials are not easy to remove,
using PVC sheet is essential.

Using PVC sheet is crucial.
(other printing materials cannot be used)

② Non-adhesive printing (banner, printouts etc.)

→ Exhibitor can be self-posted by tacker or stapler

※Staple must be removed after the show.

Tacker is better and easy to be used

③ Frames or any items, need to be hung on the wall

→Exhibitors can self-build with screws
(the size must be up to 25mm) (No Nail)

Not on the joints area

Not too many hangs on the same spot

④ S ring, hanging rods or wire ring can be used to hang

→Exhibitors can self-hang items in the groove on the top of the wall by using wire rings.

(S ring and wire rings can be purchased at the hardware store)

NOTICE

- ① The construction material (wood wall) is a rental products which must be restore to the original condition after use
- ② Any superior adhesive strength product such as double-sided tape or super tape cannot be used.
(if you use a line tape from 3M company under the double-sided tape, it can be store to the original condition. Please use this method)
- ③ Any other high-strength adhesive such as glue gun or silicon are prohibited.
- ④ Any perforating actions except screw are prohibited.
- ⑤ if any damage occurs restoring fee will be charged. (maximum ₩ 300,000 per booth panel)

Wall display samples

Wall-hanging PDP installing methods

- Cables cannot be molded if you use laptop or any other electronics .
- This walls cannot be perforate for hiding cables or wires. It will be molded by wire molding rods with 3M Line tape
